

## **EDEM FOR POSTDOC PROGRAM APPLICATION PACK**

This document includes

- Application Information and Guidelines (Page 2)
- Application Form (Page 3)

## Overview

The aim of the 'EDEM for Postdoc' program is to support academics undertaking research using the Discrete Element Method (DEM). This initiative has been designed specifically for postdoctoral researchers who are applying for funding and wish to use EDEM software as part of their research.

Successful applicants will get a free EDEM license for a duration of 3 months, enabling them to gather initial results to support their funding application.

## How to Apply?

Simply fill in the application form and letter below and return it to [academic@edemsimulation.com](mailto:academic@edemsimulation.com)

## When can applications be made?

Applications can be made at anytime throughout the year. Once submitted, applications will be reviewed and a response will be sent out within 2 weeks.

## What is included?

Successful applicants will receive the following:

- EDEM software license for a duration of 3 months
- Access to any software updates during the license period and technical support
- Access to the EDEM customer area including resources such as tutorials, EDEM User Forum etc.

## Eligibility & conditions:

- Applicants must hold a doctoral degree (PhD) or be in the final stage of obtaining one
- Applicants must have reviewed and approved the Terms and Conditions mentioned in the application form

## Application Form

Please complete the application form below and return to: [academic@edemsimulation.com](mailto:academic@edemsimulation.com)

### Your details

First name	
Last name	
Email address	
Phone	

### Your current organization & role

Institute	
Department	
Current position	
Qualifications & Completed date	

### Principal Investigator details

First Name	
Last Name	
Position / Job Title	
Institute	
Department	
Email address	

### Other institutions involved

*If you are planning to collaborate with other institutions please mention which ones here.*

### About your research

Proposed title	
Expected duration	

### Research project description

*Describe the proposed research project, providing project's background if applicable (min 500 words, not including diagrams/tables/references).*

**Key research questions**

*List the questions this research project will attempt to address.*

**Methodology**

*Outline the strategies & methodologies of this research project, including how EDEM software will be used.*

## Opportunity to generate impact

Provide details of how the proposed research has the potential to generate impact (min 300 words).

## Funding bodies

Specify all sources of funding of the proposed research including any agencies, academic institutions, commercial organizations, etc.

Funding body	Application deadline	Expected results date	Additional comments

What budget is allocated for EDEM software in your funding proposal?

When would you like your free 3-month EDEM license to start?

I agree to:

Share research updates and outcome with EDEM Team [by end of free license period]

Acknowledge the use of EDEM software in publications (please refer to EDEM Referencing Guidelines document)

the following Terms and Conditions:

1. *the "Licensee" for the purposes of the License Agreement for EDEM Academic shall be the University stated in this application form;*
